So... here's the information you and your parents/guardians need to know:

Benefits of Earning College Credits in High School

- SAVE MONEY! These courses are FREE for IUSD high school students
- Many courses transfer to University of California and/or California State Universities.
- Students taking these courses will either start their first college transcript or add to their college transcript if they've already taken college courses.
- Students who access college-level courses gain a competitive edge in the college application process and are able to matriculate to college with earned college credits, saving time and money in their post-secondary education and pursuits.

IVC Grades:

Grades received in IVC CCAP dual enrollment courses will appear on an official IVC transcript, and can be used by students when applying to colleges and universities. IUSD posts CCAP dual enrollment grades as a Grade 13 course in Aeries, and these will not factor into your high school gpa nor be seen when applying to college or sharing your transcript.

Students follow the four easy steps below to start earning college credits at IVC and use this [FORM](#) to track your login information:

1. Create an OpenCC account [HERE](#)
2. Apply online to Irvine Valley College for Fall Semester 2022
3. Submit your K12 Special Admission Request for IUSD CCAP Courses by mid-May
4. Enroll. Your high school will give you an Add Permit Code (APC) that you will use to self-enroll on or after your registration date and no later than June 23

Have more questions?

Directions, links and video instructions for signing up for CCAP Dual Enrollment courses can be found [HERE](#)

You can also contact a dual enrollment specialist in the IVC Admissions and Records office: Robert Melendez: rmelendez@iusd.org

Or check with your high school counselor if you require assistance [HERE](#)
